Ensuring everyone’s right to health is fully achieved through the promotion and inclusion of sexual and reproductive health and rights.
With debates over the future of the International Conference on Population and Development (ICPD) Programme of Action and the impending Millennium Development Goal (MDG) deadline of 2015, APA strengthened dialogue for future directions of NGO advocacy in sexual and reproductive health and rights (SRHR) in Asia and the Pacific, to propel the regional agenda forward.

One of the highlights this year was the 6th Asia Pacific Conference on Sexual and Reproductive Health and Rights in Yogyakarta, where members gathered for a workshop and fostered dialogue with partners and donors in several sessions to strategize for increased commitment for SRHR and MDGs.

In 2011, members implemented APA's advocacy grants program. The program supports APA members in national level work, with activities focused on increased commitment and resources to achieve universal access to reproductive health. The 2011 Political Declaration on HIV and AIDS saw APA's work focused on the linkages with SRHR and gender equality in the region. The activities in this report show increased support for these linkages in the context of a concentrated HIV epidemic in Asia and the Pacific.

At the 4th High level Forum on Aid Effectiveness, the Republic of Korea shared its development experience from net aid recipient to a net aid donor. APA joined the Forum together with political leaders, government representatives, parliamentarians, CS organisations and private sector representatives from both developing and donor countries to further the effectiveness of aid and development efforts and pursuit of the MDGs.

The development and distribution of APA's information kit on the funding gap on sexual and reproductive health and reproductive health supplies in Asia and the Pacific contributed to increased accountability and aid transparency on SRHR.

APA ensured a strong presence at additional regional and global events such as: the Asia Pacific Consultation on Universal Access in Bangkok; the International Congress on Aids in Asia and the Pacific in Busan; the Commission on Population and Development in New York, the Civil Society Stakeholder Meeting on Moving Beyond 2014 in Istanbul; and the Regional Consultation on SRHR/HIV Linkages in Kuala Lumpur.

This year APA welcomed IPPF East & South East Asia and Oceania Region (ESEAOR) as a new member. APA also became a member of the Reproductive Health Supplies Coalition (RHSC). We are looking forward to strengthen our advocacy further with these partnerships. Australia Reproductive Health Alliance (Australia) and Global Focus (New Zealand) ceased operations. APA would like to offer warm thanks for their hard work and dedication.

Details of the year’s activities are outlined in this Annual Report. A heartfelt thanks goes out to all the APA members, partners and donors whose support and energy made all of these activities and collaborative efforts possible. APA has grown into a more professional network and the strategic location of Bangkok for the Secretariat has resulted in increased cooperation and a stronger presence for APA and members at regional fora and UN meetings. We still have a long way to go, but we look forward to keep evolving and strengthening our role of advocacy and network building to advance SRHR in Asia and the Pacific in 2012.

Sumie Ishii  Rose Koenders
Chair  Executive Director
The SRHR needs remain high in this dynamic and demographically diverse region, and Asia and the Pacific are still far from achieving universal access to reproductive health (MDG5b). Globally, this region accounts for a substantive portion of the current unmet needs:

- £ 44% of maternal mortality and morbidity
- £ 55% of the unmet need for family planning services

Gender and power relations in society can prevent women and girls from accessing sexual and reproductive health services and information. In Asia and the Pacific, women suffer from some of the world’s lowest rates of employment, political representation, property ownership and participation.

Additionally, gender inequality, limited access to information, poverty, social marginalization and stigma are all factors that increase vulnerability to HIV and poor sexual and reproductive health, which are inextricably linked.

Despite this, in global development terms the region of Asia and the Pacific is often neglected.

The Pacific, in particular, suffers from lack of evidence and data upon which to base SRHR related policies and programs.

The Alliance fosters an enhanced environment that supports sexual and reproductive health and rights programmes throughout Asia and the Pacific. APA achieves this by targeting advocacy on selected SRHR issues in the region. The key issues that APA engages on are:

- SRHR and MDG linkages
- Family planning and reproductive health supplies
- Maternal health
- HIV linkages/integration
- Women and gender
- Tracking and monitoring
- ICPD+15 processes
- Young people

### APA’s Key Focal Areas

In 2011, APA focused its work on SRHR and HIV linkages with gender equality in the region. The Secretariat strengthened and initiated new advocacy for SRHR with a specific focus on two of the key focal areas: SRHR and HIV linkages/integration and women and gender.

APA provides opportunities for its members to network and collaborate. APA convenes meetings and sessions to facilitate dialogue, discuss regional trends and priorities to enhance advocacy strategies. Workshops are also organized to increase capacity in advocacy.

APA was one of the lead organizations to establish the Unzip coalition, along with the civil society organizations: 7Sisters; Asia Pacific Network of People living with HIV (APN+); Asia Pacific Council of AIDS Service Organizations (APCOS); Asian-Pacific Resource and Research Centre for Women (ARROW); Caram Asia; and International Community of Women Living with HIV/AIDS, Asia Pacific (ICW-AP), along with UN partners.

APA participates in regular meetings of a regional UN Interagency Task Team (IATT) on Women, Girls, Gender Equality and HIV, which includes representatives from development partners UNAIDS, UNDP, UNFPA, UNICEF and UN WOMEN, and key civil society organizations.

Through involvement with UNZIP and IATT advocacy for key affected women and girls in the HIV epidemic in Asia and the Pacific has been strengthened.
**Regional and Global Meetings**

**Asia Pacific Consultation on Universal Access**
A regional consultation in the lead up to the UN General Assembly High Level Meeting (HLM) on HIV/AIDS was held in Bangkok in March 2011. APA developed key recommendations for country delegates and civil society to highlight the importance of linking HIV/AIDS with SRHR and gender equality in achieving universal access in Asia and the Pacific. In total, 47 endorsements were collected. Most recommendations were included in the final outcome document of the Civil Society Forum and in the draft Final Resolution, but language was weakened in the Final Resolution itself.

**Commission on Population and Development (CPD)**
APA attended the Commission on Population and Development (CPD) in 2011. APA supported the oral statement submitted by APA highlighting the unmet sexual and reproductive health needs in the Pacific.

**Moving Beyond 2014: A Civil Society Stakeholder Meeting**
APA members JOCFP, Pathfinder International, IPPF ESEAOR, and UNFPA, among others, were present to strengthen cooperation in the lead up to the 4th High Level Forum on Aid Effectiveness (HLF-4) that was held in the Republic of Korea. APA and PAI were elected as accredited civil society (CS) participants for the HLF-4 including a Global CS Forum. APA, PAI, and PAI joined hands with health and development NGOs in the Asia Health Working Group. APA also contributed to discussions on the impact of the aid effectiveness agenda on SRHR.

**Regional Consultation on SRH/HIV Linkages**
APA was invited to participate in a consultation to discuss SRH/HIV Linkages held in Malaysia in December 2011, organized by UNFPA APRO and IPPF ESEAOR. The meeting provided a chance for NGOs and community groups to join government and UN experts in an exchange of experiences and findings amongst countries implementing the Rapid Assessment Tool (RAT) for SRH and HIV linkages. The final report identified key actions to be undertaken by various partners in order to increase country commitments for 2012.

**Working towards the Commission on Population and Development (CPD) 2012**
In collaboration with WPF Rutgers Indonesia, APA, coordinated advocacy efforts for the CPD in 2012, and organized an NGO consultation in Yogyakarta during APCRSHR6. Following the meeting, representatives met with the co-chair of the CPD 2012 (Indonesia) to deliver key messages.

**10th International Congress on Aids in Asia and the Pacific (ICAAP10)**
APA members IPPF, Africa Japan Forum (AIF), ICOMP, Planned Population Federation of Korea (PPFK), and Raks Thai Foundation attended ICAAP10 which was held in August in Busan, Korea, for SRH and HIV linkages. The final report identified key actions to be undertaken by various partners in order to increase country commitments for 2012.
AUSTRALIA Enhancing MDG5b in the Pacific

Sexual Health & Family Planning Australia (SH&FPA), in collaboration with FPI, organized the ‘Family Planning Pacific Forum’, with the goal of enhancing the achievement of and commitment to MDG5b in the Pacific region. The multi-stakeholder meeting was organized in cooperation with Family Planning NSW in Sydney from 15 – 16 November. 47 participants attended both days of the event, including representatives from Papua New Guinea, Solomon Islands, Samoa, Fiji, Cook Islands, Tonga, Kiribati, Tuvalu, Vanuatu and Timor Leste; IPPF, UNFPA, AusAID, World Bank, Marie Stopes International, Burnet Institute, and Australian and Papua New Guinean politicians.

The Forum resulted in recommendations including: a commitment to explore a model to enable future collaboration on SRHR issues in the Pacific; a proposal to jointly develop a ‘Call to Action’ paper on MDG5b targeted at key decision makers and donors working across the Pacific; mapping advocacy opportunities and development of action plans that target major Pacific based meetings and forums of decision makers; a call to support small Pacific-based Family Planning organisations with capacity building and mentoring to enable them to develop and implement advocacy initiatives at their national level.

Participants of the ‘Family Planning Pacific Forum’

Members of an Independent Review Panel assessed the grant proposals. Special thanks go to Katherine McDonald, Sony Aibe as well as establish new linkages and networks. A stakeholder mapping of SRHR in the Pacific was also undertaken following the Forum, to identify all of the MDG5b related projects and initiatives in the region. The grants are a maximum of USD 33,000 each.

APA supports national advocacy in the region. APA provides grants to its members to encourage strategic and targeted campaigns to increase resources and improve donor policies. Most projects of the 9th cycle of the APA Advocacy Grants Programme were implemented in 2011. The theme of the 9th cycle focused on awareness raising and encouraging political and financial commitment for MDG5b, universal access to reproductive health. A total of 5 grants were distributed amongst APA’s focal countries: Australia, Japan, New Zealand, Republic of Korea, and Thailand. The grants are a maximum of USD 33,000 each.

Participants were able to strengthen and build upon existing relationships, as well as establish new linkages and networks. A stakeholder mapping of SRHR in the Pacific was also undertaken following the Forum, to identify all of the MDG5b related projects and initiatives in the region.

JAPAN Building a Civil Society Coalition

Africa Japan Forum (AJF) in collaboration with the Korean NGO Network against Global Poverty (GCAP), aimed to create a civil society coalition among the G20 Asia and the Pacific member countries, to ensure that countries Australia, China, India, Indonesia, Japan, and the Republic of Korea work on sexual and reproductive health and rights and the MDGs. The project also aimed to strengthen Japan’s contribution for health-related MDGs and sexual and reproductive health and rights in both policy and aid through civil society advocacy.

The coalition coordinated and strengthened advocacy on MDGs and SRHR, the global and national level. Through coordination of efforts at key international events, the G20 and the 4th High Level Forum on Aid Effectiveness; the relationship between Japan and Korea civil society working on HIV/AIDS was strengthened. Civil society pushed important advocacy points including transparency, ownership, universal access, rights, and other issues linked to SRHR.

Participants of the ‘Family Planning Pacific Forum’

Tragically, in March 2011, the earthquake and tsunami disaster in Japan heavily impacted the country with nearly 20,000 lives lost or unknown. The Japanese government concentrated financial resources for relief and reconstruction of the Tsunami-affected area, and this resulted in a 10% cut in ODA. In response, AJF organized the ‘Ishinomaki International Festival’ to increase grassroots level solidarity to flight disaster and poverty, in Japan and in developing countries. Three community leaders from Asia, Africa and Middle-east to were invited to hardest-hit area of Tsunami (Ishinomaki) for the event, and ‘Stand Up’ against global poverty was formed.

TOKYO CONFERENCE ON AFRICA DEVELOPMENT (TICAD)

The Japanese government concentrated financial resources for relief and reconstruction of the Tsunami-affected area, and this resulted in a 10% cut in ODA. In response, AJF organized the ‘Ishinomaki International Festival’ to increase grassroots level solidarity to flight disaster and poverty, in Japan and in developing countries. Three community leaders from Asia, Africa and Middle-east to were invited to hardest-hit area of Tsunami (Ishinomaki) for the event, and ‘Stand Up’ against global poverty was formed.

At the national level efforts concentrated on Japan’s Overseas Development Assistance (ODA) reform process and Tokyo International Conference on African Development (TICAD). TICAD has become a major global framework for Asia and Africa to collaborate in promoting Africa’s development. Relationships have been strengthened with key policymakers, and over 30 members attended meetings held with civil society on the MDGs and Japan’s ODA.
NEW ZEALAND Study Tour to the Solomon Islands

Family Planning International (FPI), in collaboration with New Zealand members, organized a study tour to increase awareness, understanding and commitment to action, as well as increase the advocacy capacity of the participants. The study tour to the Solomon Islands from took place 5 – 10 July 2011. The delegation included a Member of Parliament, three journalists, along with two FPI staff members.

The study tour successfully increased the advocacy capacity of all those who participated, through witnessing the sexual and reproductive health and rights issues in the Solomon Islands, by interacting with people experiencing those challenges, and those seeking to address them. Participants of the study tour self-reported improved understanding of SRHR issues and challenges on the ground in the Solomon Islands, and an ability to speak knowledgeably on SRHR issues. They noted an enhanced understanding of the importance of MDGs 3, 5, and especially 5b; and saw the connection between SRHR and sustainable economic development.

Jackie Blue, MP from New Zealand, presented her experiences from the study tour to the New Zealand Parliamentarians’ Group on Population and Development (NZPPD), as well as speaking at a United Nations Association of New Zealand (UNANZ) forum. Jackie Blue has also been quoted on national radio several times talking about her experiences in the Solomon Islands, and encouraging further investment in reproductive health.

“...this study tour brought home to me how important it is to address sexual and reproductive health and rights, and the many, many benefits this will have across the region – one of which will be improving maternal health.”

THAILAND Promoting Reproductive Health of Youth Living with HIV/AIDS

Raks Thai Foundation focused on the promotion of strong networks among and for youth living with HIV/AIDS (YLHA) and their sexual and reproductive health. A series of youth-led activities were organized, in order to help youth in managing their HIV infection as they transition through adolescence, and provide support for the network to promote peer-based assistance and mentoring for inner strength.

This included support for the YLHA network to implement activities geared towards promoting sexual and reproductive health, enhancing understanding with partners and the public in order to reduce stigma and discrimination, improving reproductive health policy and the promotion of solidarity among provincial, regional and national level partners on RH issues.

The YLHA peer leaders were able to create a network among themselves called the Raks Thai Power Teen Network. The peer leaders developed skills as resource persons and successfully mobilized budget support for a “Youth Power” initiative in 2012 to expand on the concepts and skills-building camps. And three YLHA peer leaders attended APOSH16 in Indonesia in October, sharing the results of the project in two presentations.

REPUBLIC OF KOREA Increasing and MDG5b

The Planned Population Federation of Korea (PPFK) in collaboration with Republic of Korea members aimed to increase understanding of SRHR and MDG5b among target groups and the general public, and gain their support for these issues. The advocacy work capitalized on three international events held in the Republic of Korea in 2011: the 21st International Youth Forum, the 10th International Congress on AIDS in Asia and the Pacific (ICAAP10) and the 4th High Level Forum on Aid Effectiveness (HLF-4). In cooperation with other organizations and agencies the PPFK organized special discussions on SRHR and MDG5b during these events using the opportunity to garner attention and commitment to achieve MDG5b.

Aim to find ways to encourage young people’s involvement in achieving the Cairo Agenda, and was held in Seoul and Chungcheong Province from 16 – 25 August 2010. One month prior to the forum PPFK held a preparation workshop for 50 local participants to familiarize them with the Cairo Agenda and related issues. At the Youth Forum PPFK helped organize four sessions on SRHR issues, including one with APA on MDG5b: 125 youth participants from 39 different countries participated in the Forum. Afterwards, the number of participants reporting a high/very high understanding increased by over 25% in each of the issues of MDG5b and the Cairo Agenda.

Aim to review progress on implementing the principles of the Paris Declaration, from 29 November – 1 December 2011, with over 3000 delegates in attendance. PPFK worked with the Korean Civil Society Forum on International Development Cooperation (KOFID), from the end of G20 until the HLF-4, and organized a preparation workshop for HLF-4 with APA. PPFK participated in the HLF-4 to call for more investment into SRHR globally.

Awareness of SRHR

The 21st International Youth Forum

The 21st International Youth Forum was held in Busan from 26 – 30 August. PPFK and the Korean Federation for HIV/AIDS Prevention (KFAP) held a special session on linkages between HIV and extended SRHR service delivery. This led to an increased understanding among participants on the importance of an integrated approach.

The 10th International Congress on AIDS in Asia and the Pacific (ICAAP10)

The 10th International Congress on AIDS in Asia and the Pacific (ICAAP10) held a special session on linkages between HIV and extended SRHR service delivery. This led to an increased understanding among participants on the importance of an integrated approach.

The 4th High Level Forum on Aid Effectiveness (HLF-4)

The 4th High Level Forum on Aid Effectiveness (HLF-4) aimed to review progress on implementing the principles of the Paris Declaration, from 29 November – 1 December 2011, with over 3000 delegates in attendance. PPFK worked with the Korean Civil Society Forum on International Development Cooperation (KOFID), from the end of G20 until the HLF-4, and organized a preparation workshop for HLF-4 with APA. PPFK participated in the HLF-4 to call for more investment into SRHR globally.

NATIONAL ADVOCACY GRANTS
Summary Report on the Strategies for Key Affected Women and Girls
APA, Citizen News Service (CNS) and the SEA-AIDS eForum Resource Team facilitated an online consultation in August, to identify strategies to address the needs and rights of key affected women and girls in HIV and AIDS programmes in Asia and the Pacific. The summary report had wide media coverage and was published in 16 different news media, as well as reaching the Today’s News clips of UNAIDS New York, and was presented at ICAAP10.

Research on SRHR Advocacy with ASEAN
APA was a collaborative partner in the development of ‘Building Women and Girls’ global meaningful participation in the HLM on AIDS’ factsheet, with regional priorities for Asia and the Pacific. The ATHENA Network and the Global Coalition on Women and AIDS (GCWA) initiated a global virtual consultation with regional partners to ensure the broadest possible engagement and representation of women in the processes leading up to the HLM on AIDS in June 2011.

In 2011, APA implemented activities in line with the Communication Strategy. Communication tools such as the APA website and a fortnightly e-newsletter have proven indispensable to strengthen co-operation, foster cohesiveness, and enable members to exchange information on projects, campaigns, meetings and events. This year, 23 updates were sent out to a readership of 300, representing an increase of update recipients by 20% from 2010. The APA website was updated with the addition of a new resource section on ‘youth’.

To strengthen visibility APA banners were developed and used at the booths of conferences providing a common ground space for all Alliance members to display resources, share information, and showcase how NGOs from different backgrounds work together. A standard APA Power Point Presentation with advocacy messages was created in cooperation with Spitfire, a US based Consultancy organization. And in August, APA created an organizational Facebook page which has gained 75 ‘fans’, and is regularly updated with current SRHR developments and APA Member and partner events.

Building Women and Girls’ Global Meaningful Participation in the High Level Meeting (HLM) on AIDS
APA was a collaborative partner in the development of ‘Building Women and Girls’ global meaningful participation in the HLM on AIDS’ factsheet, with regional priorities for Asia and the Pacific. The ATHENA Network and the Global Coalition on Women and AIDS (GCWA) initiated a global virtual consultation with regional partners to ensure the broadest possible engagement and representation of women in the processes leading up to the HLM on AIDS in June 2011.

Investing in Sexual and Reproductive Health Saves Women’s Lives
APA developed an Advocacy Information Kit on MDG5, sexual and reproductive health and supplies and the funding gap in Asia and the Pacific. The information kit was based on the report ‘Making Sexual and Reproductive Health and Rights Count: Asia and Pacific Resource Flows Project 2010’ and is part of APA’s advocacy efforts to improve international assistance policies and priorities and to provide important comparative data at the regional level.

Communication
In 2011, APA implemented activities in line with the Communication Strategy. Communication tools such as the APA website and a fortnightly e-newsletter have proven indispensable to strengthen co-operation, foster cohesiveness, and enable members to exchange information on projects, campaigns, meetings and events. This year, 23 updates were sent out to a readership of 300, representing an increase of update recipients by 20% from 2010. The APA website was updated with the addition of a new resource section on ‘youth’.

To strengthen visibility APA banners were developed and used at the booths of conferences providing a common ground space for all Alliance members to display resources, share information, and showcase how NGOs from different backgrounds work together. A standard APA Power Point Presentation with advocacy messages was created in cooperation with Spitfire, a US based Consultancy organization. And in August, APA created an organizational Facebook page which has gained 75 ‘fans’, and is regularly updated with current SRHR developments and APA Member and partner events.

Strengthens APA networking at all levels
Shares evidence to support regional and national advocacy
Increases APA outreach to relevant constituencies
Enhances corporate communications

APA supports evidence-based research in order to strengthen regional advocacy work. Advocacy work is more effective and powerful when supported by reliable data.

All the below resources can be found on the APA website.
APA is supported by donors during different grant periods as reflected in the financial report. APA works in partnership with the PLANNED PARENTHOOD ASSOCIATION OF THAILAND (PPAT) while in the process of official registration with the Royal Thai Government. APA is thankful for PPAT’s continued assistance.

APA WOULD LIKE TO EXTEND A WARM THANKS TO:
The William and Flora Hewlett Foundation and
The David and Lucile Packard Foundation and
Population Action International
It is with their support that the Asia Pacific Alliance can continue its advocacy initiatives and activities towards the promotion and fulfillment of sexual and reproductive health and rights in Asia and the Pacific.
